PROFESSIONAL SUMMARY

Flutter Developer with hands-on experience building 5+ cross-platform mobile applications using Dart, Flutter, Firebase, REST APIs, and state management solutions including Provider and Bloc. Skilled in Mobile Application Development, Clean Architecture, and SOLID principles, with a track record of delivering high-performance, maintainable applications. Computer Science graduate with Honors, Ranked 2nd in Class (GPA: 4.43/5).

TECHNICAL SKILLS

Languages: Dart, Java, C++, SQL

Frameworks: Flutter

State Management: Provider, Bloc, GetX, Riverpod

Databases: Firebase (Auth, Firestore, FCM), SQLite, Hive

REST APIs: REST API Integration, JSON, HTTP, Postman

Version Control: Git, GitHub, Git Flow

Tools: Android Studio, VS Code

Concepts: OOP, SOLID, Clean Architecture, MVVM, MVC, Dependency Injection, Localization

EXPERIENCE & TRAINING

Programming Instructor – Egypt Code Club

Part-time, Current

- Deliver programming instruction as part of the Egypt Code Club team, supporting learners in core Computer Science and software development topics.

Freelance Online Computer Science Instructor

2 Years

- Conducted 1-on-1 and group mentoring sessions covering OOP, Data Structures, and Problem-Solving fundamentals.
- Guided students through application development, clean code practices, and software architecture principles.

Mobile Development Trainee – Information Technology Institute (ITI)

Aug 2025 – Sep 2025

- Independently designed and built a movie streaming application as the training's capstone project, applying Clean Architecture and the Bloc pattern for state management.
- Completed an intensive Flutter & Dart training track covering mobile app architecture, clean code practices, and SOLID principles. View Certificate
- Integrated REST APIs, Firebase services (Auth, Firestore), and Git-based version control workflows as part of a broader cohort-based training program.

EDUCATION

Faculty of Science, Tanta University

Sep 2022 – Jul 2026

B.Sc. in Computer Science

Tanta, Egypt

GPA: 4.43/5 (94.3%) – Excellent with Honors, Ranked 2nd in Specialization.

Graduation Certificate: View Certificate

AWARDS

1st Place Winner – Science Students' Innovation Forum

Nov 2025

"Innovation and Entrepreneurship" Competition, Delta Region Universities Alliance – Developed a comprehensive Financial & Administrative Tracking System to automate academic workflows.

PROJECTS

Finance Management System | Dart, REST APIs, Provider, Shared Preferences

github.com/Yousef-Mostafa10/college-project-Tanta-financial

- Solved manual, error-prone financial workflows for a university department by building a role-based financial management application with Flutter, REST APIs, and Provider architecture as sole developer.
- Enforced secure authentication and access control, integrated real-time notifications, and delivered full Arabic/English localization for a bilingual user base.

Smart Attendance System | Firebase Auth, Cloud Firestore, QR Scanner

github.com/Yousef-Mostafa10/registering_attendance

- Replaced manual attendance tracking with an automated QR-based system, generating and scanning QR codes to record attendance in real time.
- Implemented real-time cloud updates and secure Firebase authentication for accurate, tamper-resistant records.

Student Grades Management App | REST APIs, Responsive UI

github.com/Yousef-Mostafa10/Student-grades-APP

- Automated GPA calculation and student ranking via REST APIs, with a responsive, easy-to-read grading display.

Vantage – Movie & Streaming App | TMDB API, SQLite, Bloc

github.com/Yousef-Mostafa10/Movie-App

- Developed a movie discovery app by integrating the TMDB API with pagination and global search, using Bloc for state management.
- Implemented offline caching of Favorites with SQLite and added Dark Mode support, improving usability.

Image Processing App | Google ML Kit, Image Package

github.com/Yousef-Mostafa10/image-processing-App

- Built a mobile application for digital image processing, applying real-time filters and enhancements using Google ML Kit.
